Williams, Henry Griffin, Grossie Williams, Darrel Sullenger, John P. Taylor, Joshua Field, Trimble Pendleton and Douglas Wilboye.

**Speaking Monday.**

Considering the hot weather and the busy attitude of the farmers nowadays, there was a good sized audience at the court house in Hartford Monday to hear the speech of Hon. Henry D. Allen, of Union county, congressman from the Second district. Mr. A. T. Dockery, of Morgantown, Democratic nominee for State Senator in this district, was also on hand and made a brief talk, presenting his claims to the people.

Mr. Allen was introduced by county chairman Holbrook and at once launched forth in his speech of an hour's duration. He was closely listened to and frequently applauded. It was a good old-fashioned Democratic speech, abounding in sound doctrine, good sense and fairness to all opposing sentiments. Mr. Allen's presentation of the Louisville Convention question was most fair, plain and able, and it would seem that no Democrat who listened to his speech could fail to support the regular Democratic ticket headed by Mr. Goebel.

Mr. Allen spoke at Beaver Dam Monday night to a fair audience.

### SCHOOL MUDDLE.

The Fordville School Trouble Again Commanding the Attention of the Public.

The celebrated case of the Fordville Public School is again on the boards for its share of public notice. It has been in the courts for quite awhile and is about as far from a settlement now as at the beginning.

The trouble all came up over the employment of teachers. Prof. L. W. Godsey was one of the teachers employed a year or so ago and at the expiration of his services, three of the school trustees were against employing him again, while the other three trustees were well satisfied and quite determined that Prof. Godsey should continue as an instructor in the school. This was the origin of the factions which have become known as the Godsey and anti-Godsey people. So strong is the sentiment that neither side will give way for the other. The discussion has caused the breaking of friendly ties. The population of Fordville is greatly worked up over the question. The anti-Godsey folks have repeatedly tried to employ another teacher, but each time the question was voted on, the three Godsey trustees would vote solidly for their favorite teacher and at once form a deadlock.

A few weeks ago, it will be remembered, Supt. Rogers undertook to remove the Godsey trustees, and they replied by suing out an injunction, preventing him from displacing them. This injunction was dissolved by Judge Owen at Owensboro, whereupon the Godsey crowd took the matter before Judge Hobson, of the Court of Appeals, and had the injunction reinstated. The case came up again at the recent term of the Ohio Circuit Court, when the petition was dismissed by Judge Owen. The matter was then taken to the Court of Appeals, where it is now pending.

Lately the two different factions of trustees have refused to meet with each other for the transaction of school business. At the election last May there was quite a squabble, each faction claiming that it was the one elected and refusing to countenance the other. The case is now being tried before Supt. Rogers, in his former office—the failure of the Godsey trustees to meet with the other faction for the performance of their duties as trustees.

Altogether it is one of the most complicated and troublesome cases that ever came up in this county. The defects in our school laws are the cause of much of the trouble. The board of school trustees should be constituted of either five or seven persons (an odd number), and then a vote on a question could be quickly taken.

Fordville has a splendid school building, recently erected at a cost of between four and five thousand dollars. This edifice has been standing as a monument to the stubbornness and folly of a board of school trustees, while the children, for whom it was erected, are reaping little benefit from its erection. The Godsey faction commenced school in the building last Monday, with Prof. Godsey in charge, with other teachers. They totally ignore the other faction and claim that their authority is perfect. Just what will be the outcome of this troublesome matter, is hard to conjecture, but surely the affair ought to admit of an amicable settlement, with due justice to all concerned. At least we hope it will not—like Tennyson's brook—go on forever.

On last trip of the steamer Solito, quite a lively party of ladies and gentlemen were aboard as passengers, viz.: Misses Doris and Jennie Ballantine, Wilmet Bewley and Eva Clark; Messrs. W. C. Whayne, John McIntire, Ramsey, O. F. Bartlett, Muncie, Ind.; Mrs. Cyrella Jago, of Bowling Green. When parties arrived at the Hartford wharf, it was reported that a wedding had taken place about one mile below town on the boat—the contracting parties were said to be Mr. W. C. Whayne and Miss Doris Ballantine. Miss Irene Ballantine, sister to the bride, was maid of honor and John McIntire best man. Rev. J. E. McDonald officiated as minister and after jumping the broom stick as he thought efficiently, he pronounced them man and wife. What is sometimes a joke oftentimes proves a reality. The parties were highly delighted with their visit to Hartford. A band of music came with them and dancing was a part of the program on board of the boat at Hartford, where many of the Hartford young people joined in with them. The young people of Hartford hope they may return again at an early date.

**Green River Valley Improvement Association.**

The Green River Valley Immigration and Improvement Association met at Livermore last Thursday. There was a good attendance and the meeting was marked by much interest in the object of the association. The officers present were J. F. Carson, President, and W. P. Greene, General Secretary. A permanent constitution was adopted, fixing the incumbency and duties of officers. The constitution provides that any per-

son may become a member on payment of a membership fee. A sustenance fund is created by quarterly dues. A committee on printing and advertising was appointed. The meetings of the Association are to be semi-annual. A director is to be chosen for each county, with a sub-director for each masterial district, all reporting to the central body.

The various committees reported. The report of the committee on good roads recommended legislation to encourage the New Jersey system of State aid, which enables the State to improve local roads. The general secretary was instructed to correspond with the good roads bureau of the agricultural department at Washington to secure the attendance of the Government lecturer at the next meeting of the association in October.

A resolution was adopted approving the action of the United States Government in raising the height of the dam at Look No. 1, Rough river, thirteen inches higher, and requesting the engineers in charge of the Rough river improvement to prosecute the work of removing obstructions from that stream.

A resolution was also adopted commending Mr. J. M. Mattingly, of Hartford, for his efforts in giving to the people of the Green river valley cheap telephonic connection.

Two additional directors were elected for the ensuing year—J. B. Mosley, of Livermore, for McLean county, and Dr. E. W. Ford, of Hartford, for Ohio county.

The Association adjourned to meet at Hartford October 25, 1899.

**An Old Citizen Gone.**

Dr. P. Taylor died at his home in Providence, Ky., last week, in the 70th year of his age.

Dr. P. Taylor was born in Ohio county, Ky., on the 28th of February, 1829. He was the son of Harrison and Phyllis P. Taylor, who came from Virginia and were among the first settlers of this county. His father was a second cousin of Gen. Zachary Taylor and his mother was a daughter of one of the first Methodist preachers to settle in Western Kentucky, and was a relative of the late Chief Justice Lamar. He began the practice of medicine at Fordville in 1848, and a year later moved to Hopkins county and settled near Dalton. On February 22, 1852, he was united in marriage to Miss Almira S. Anderson, who survives him. In 1859 he went to Providence and located and the remainder of his life was spent there. He was a member of the Cumberland Presbyterian church and had been a member of the Masonic fraternity for over twenty years. Two sisters and one brother survive him—Mrs. Shanks, of Hartford; Mrs. Austin, of Beaver Dam, and Geo. W. Taylor, of Cromwell. The children who survive him are Dr. John H. Taylor, T. L. Taylor and Mrs. Lelia Johnson, all of Providence.

HANNDSBURG, Ky., Sept. 4.—William Whitteck shot his brother-in-law, Jas. Wickham, to death on the farm of Wickham, six miles west of here. They had been living in the same house together for some time and had never before had any trouble. They were at the barn at the time of the difficulty and there were no witnesses. When they left the house a few minutes before both were friendly and in good humor. It is said the officers have so far been unable to apprehend Whitteck. The men were double brother-in-law, each having married a sister of the other. If Wickham received three bullets, one in the face, one in the breast and one in the abdomen.

PEORIA, Ill., Sept. 8.—Mrs. Alfred Back arrived in Peoria to-day and met her husband, to whom she was married eighteen months in Cape Town, Africa, and who deserted her one week after the wedding, after an ineffectual attempt to gain control of her property. Mrs. Back, however, still loves her husband and, although she has been away for a year, she has made \$1,000,000 in Africa mines within the past year, her husband well comes her heartily. There was, it is said, a joyful reunion.
